Skills

- Software testing theory, test documentation, TestRail, Jira, Confluence
- HTML, CSS, DevTools, Postman, SQL, Git
- Android Studio, TestFlight, TestFairly
- Languages: Russian (native), English B1 (Intermediate)

Experience

2021-2022

- Dividend Tracker (QA engineer)

The result of my work on the project was the release of a mobile application devoid of many bugs, with user-friendly improvements, with a logo invented by me that reflects the essence of the project.

Developed test scenarios, performed functional, non-functional and change related testing, made UI/UX improvements, localized the bugs and wrote reports.

2006-2022

- AO Malakhit (Design engineer)

Provided quality of documentation and whole product at all stages of life cycle, developed and checked project documentation, designed and handled ergonomics issues.

Education

2021-2022

- Online QA testing courses, video guides, books.

2001-2007

Master's degree

- Saint-Petersburg Marine State Technical University (Applied mechanics)

Interests

- Traveling, snowboarding, fitness, finance, cooking.
